

Product Information:

WORKSHOP PRO PREMIUM HAND CLEANSER

Description

Workshop Pro Premium Hand Cleanser is a concentrated hand cleaner produced with natural abrasives for the removal of heavy soiling such as grease and oil and some types of paint etc. It is a good hand cleaner that finds use across a number of industrial sectors.

Premium Hand Cleaner cleanses thoroughly whilst its unique formula, containing high levels of natural emollients from plant extracts, remains friendly to the skin and maintains the skin moisture at optimum levels.

Premium Hand Cleanser is based on a complex synergistic surfactant system and its cleansing action is enhanced by the addition of a naturally occurring micro abrasive. It is free from solvents, silicone and plastic micro-beads.

Applications

Premium Hand Cleanser is suitable for use in all areas and types of industry. It cleans deep into the pores, providing lasting skin-protection and replacing the skins natural oils. Premium Hand Cleanser will remove a wide range of products from soiled skin including oils, greases, tar, bitumen and printing inks.

Directions for Use

Rub a little Premium Hand Cleanser into dry hands to loosen any dirt. Add a little water, wash thoroughly, then rinse well and dry.
